

One of the great things about listener sponsored radio is that it is not controlled by anyone but us - the listener. I do not want anyone interfering with my being able to listen to Christian music on the air. I live in a small Christian based town where most of us listen to KLOVE on a regular basis. Your LPFM will destroy that ability. The separation of State and Church has done nothing but hurt this country. The children and teens fear nothing. Listening to Christian music is a good thing. Please, leave my radio station alone.
